

## FORLORN SUFFRAGETTE SHOUTS AT KING GEORGE

Solitary Woman Raises One Little "Votes for Women!" as Royal Auto Passes.

## POLICE TAKE CARE OF HER

Man Who Advocated Burning of Militants' Headquarters Arrested—London's Great Reservoir Opened.

(By Cable to The Tribune.) London, March 15.—The King and Queen made their progress through the East End to-day without molestation by suffragettes. There was only one attempt at a suffragette demonstration, this occurring near Enfield Lock after the royal party had changed to automobiles. A woman on the sidewalk shouted "Votes for women!" but she was promptly silenced by the police.

There had been considerable uneasiness over the drive, as last summer during the dock strike the King had to abandon his plan of taking part in the dedication of the Albert Dock in the Port of London, on account of hostile threats from the East End, but to-day the royal party was cordially received by large crowds at Whitechapel, Mile End and Bow, while at the Obelisk, in Whitechapel High street, a bouquet was presented to the Queen by the Costermongers and Street Sellers' Union.

### A Captain's Escort.

The royal party proceeded in open carriages, with a captain's escort from the 2d Life Guards, from Buckingham Palace to West Ham, where a change was made to automobiles. There were three carriages.

In the first were the King and Queen and Reginald McKenna, the Home Secretary; in the second the Countess of Airlie, Lord Acton and Lord Stamfordham, and in the third Lady Mary Trefusis, the Hon. Venetia Baring and Captain Philip Hullock, while Major Charles Fitzmaurice and Major Olive Wigram were the equestrians on horseback.

At Chingford the King named the new reservoir which is to supply London with 180,000,000 gallons of water daily "King George's Reservoir," and pressed the button which started pumps filling the 416 acres of the reservoir.

The woman arrested on Friday evening on suspicion of being connected with a suffragette plot to damage the new water reservoir at Chingford, in the northeast of London, turned out to be a music hall singer. After six hours' detention at the police station she was released. She sings a suffragette song on the stage. The police found a heap of shavings, hammers and other militant paraphernalia in an automobile in the vicinity of the place where she was arrested.

### Militant Sent to Prison.

Marjorie Masters, the militant suffragette school teacher, who yesterday threw a pot of green paint through a window of the Home Office, was sentenced to-day by the police magistrate to a month's imprisonment. She informed the magistrate that it was her method of lifting the gauntlet thrown down to women by the government in ignoring the question of votes for women in the King's speech at the opening of Parliament.

The next defendant to come before the police magistrate was a male anti-suffragette, who had hurled a crowd outside the headquarters of the militant suffragette society. He had shouted to the people: "That's the place which ought to be burned down!" and the police promptly arrested him. He was bound over to keep the peace.

The suffragettes to-day opened another very active campaign of destruction of the mails. Many of the letter boxes in London and their contents were greatly damaged in the course of the night and this morning by the insertion of ink, oil and corrosive acids. A large force of police has been placed on special duty to guard against these outrages and to arrest the criminals.

## ABOARD THE CARMANIA

W. R. Balsinger and A. B. Leach Confident of Business Future.

(By Cable to The Tribune.) London, March 15.—Many well known Americans left Liverpool for New York to-day on board the Cunard liner Carmania. W. R. Balsinger, of the Carnegie Steel Company, who is returning home after a business visit to Europe, when seen to-day on the platform at Euston, said the United States Steel Company has absolutely no fear of any possible Democratic legislation or of any alterations in the tariff, and added as proof of United States Steel Company sentiment the fact that it was now spending enormous sums of money in the development of the plants at Braddock and elsewhere.

A. B. Leach, of New York, and his wife are returning from a holiday trip to Europe. Mr. Leach, who has been in close touch with the European financial situation, said that all indications were that the coming spring meant the end of hostilities in the Balkans and the consequent easing of the tightness in money. Vast amounts of money, he said, were being hoarded in Australia, Russia, Germany and France, and when this is released in Europe it will have a beneficial effect on the American money market. Mr. Leach added, however, that he didn't see any other factor likely to increase the value of stocks at present, but he was confident that money would soon be cheaper.

Other passengers on the Carmania were Lord Osborne Beauchamp, Mr. and Mrs. C. H. Burlingame, Colonel Price Jones, M. P. (who is going to Canada), Professor and Mrs. Pollard and K. Yamaguchi, a banker, of Yokohama, who is going to New York and San Francisco to study American banking methods.

## DEFIED MEXICANS TO TAKE MADERO'S MAN

Captain Smith of the Monterey Praised by Passengers for Saving Gariba.

While the Ward liner Monterey lay at anchor in the far off Scotland Lightship Friday night, the passengers sent for Captain Arthur Smith and gave to him a testimonial of their appreciation for his courage and good judgment when dealing with Mexican officials seven miles outside of Progresso.

When the Monterey docked yesterday the incident in the Caribbean became known. Before leaving Vera Cruz, General Gariba, one of the supporters of the late President Madero, went aboard the Monterey with a ticket and was shown to his room. When the vessel stopped for passengers off Progresso a Mexican naval tug came out with officials of General Huerta on board and asked if Gariba was on the Monterey.

When Captain Smith replied that Gariba was a passenger, the officials said Gariba was charged with conspiracy and demanded that Captain Smith deliver him up to them.

"The man you seek is on an American ship," shouted Captain Smith from the bridge. "I have no right to turn him over to you without proper authority."

Replying that they would get proper authority the officials went back to Progresso and returned with the American Consul and Vice-Consul, who informed Captain Smith he could use his own judgment.

"This man is a passenger on an American vessel," repeated Captain Smith. "So far as I know, he has committed no crime. Unless you have the authority to show me that the Mexican government wants him on a criminal charge or that President Wilson has authorized his surrender, I shall have to refuse your request. Meanwhile you have delayed this ship four hours."

Weighing anchor promptly Captain Smith pushed the Monterey away from Progresso at top speed.

## MEXICANS SEIZE BANK

German Consular Agent Reported in Prison at Sonora.

Tucson, Ariz., March 15.—Max Muller, German consular agent at Hermosillo, Sonora, and manager of the Banco de Sonora, has been imprisoned by authorities of the insurgent Mexican state and the bank seized, say reliable reports reaching here to-day. Muller is said to have aroused the displeasure of the state authorities by refusing to negotiate a loan. The bank was raided, but only 2,000 pesos were found. Muller having made provision for the safety of the funds.

The German Consul is cut off from direct communication with his minister at Mexico City, but has sent an indirect appeal to the German Ambassador at Washington.

## ALLIES BEGIN DISPUTE AMONG THEMSELVES

Bulgars Accuse Servians and Greeks of Acting Against the Common Interest.

## SAME CHARGES AT ATHENS

Ambassadors in London Conference Disposed to Regard Demands of the Victors as Exaggerated.

Sofia, March 15.—Premier Guechoff's statement in the Sobranje that despite the incidents at Nigrita and elsewhere the allies composing the Balkan League were firmly united was the subject of an extended debate in the House to-day. The Opposition leaders declined to share the Premier's optimism. They denounced the Greeks and Servians, whom they accused of persecuting the Bulgarians and of occupying territories in order to denationalize them.

They asserted that Bulgarian schools had been closed, churches and monasteries violated, priests driven out or compelled to change their ecclesiastical allegiance by the Greek and Servian authorities, who were constantly interfering with the religious affairs of the populations. An open propaganda had been carried on with a view to forcing Bulgarians to change their nationality, and finally came the engagements between the Bulgarians and the other members of the alliance at Nigrita, Subotske and other places. The speakers contended that these acts were not due to the excessive zeal of subordinates, but were part of a system of hostility to the Bulgarians, showing that the Balkan union was endangered by territorial ambitions.

If the Greeks and Servians cherished the idea of a Great Serbia and a Great Hellas, extending to the mouth of the Danube, they would be bitterly disappointed. Salonica, they declared, was the port of all Macedonia, even of Sofia, and should not be given to Greece.

Athens, March 15.—Strong feeling against the Bulgarians is spreading with great rapidity among the Greek population. The editor of the newspaper "Chronos" was sentenced to-day to a week's imprisonment for editorially denouncing Bulgarian avarice, and proceedings have been begun against several other persons for similar offences. The irritation of the Greeks arose from the Bulgarians laying claim to great stretches of erstwhile Turkish territory which Greece considers hers by right of conquest.

London, March 15.—Irritation over

the "extravagance" of the demands of the Balkan allies in their reply to the offer of mediation by the powers was expressed by some of the European ambassadors at their meeting to-day to discuss the situation. The ambassadors as a whole, however, do not regard the conditions laid down by the allies as closing the door to mediation. The next step taken by the powers will, it is expected, be in the form of recommendations with a view to approximating the demands of the Balkan allies to what the powers consider a more equitable basis of negotiations. The diplomats sat for two hours and then adjourned until March 19.

Cologne, March 15.—The Balkan allies undoubtedly will have to modify their attitude as shown in their reply to the offer of mediation by the European powers, according to an inspired dispatch from Berlin to the "Kölnische Zeitung." The great powers find the proposals of the Balkan nations in several respects inadmissible, particularly the demand for the surrender of the fortress of Scutari.

The powers, says the dispatch, reserve to themselves the settlement of the boundaries of the future Albanian state, comprising the fortress of Scutari.

## SHIELDS BOY WHO KISSED

Governor Colquitt Defers Sentence Till He Can Investigate.

Austin, Tex., March 15.—Governor Colquitt ordered to-day that a sentence of thirty days in jail imposed on Ferris Price, fourteen years old, be deferred until July 4 to give him time to determine whether Ferris should receive this punishment for kissing a schoolgirl friend, on which a charge of aggravated assault was based.

The Court of Criminal Appeals recently affirmed the sentence of the lower court, on which a charge of aggravated assault was based.

## LAWYER ARRESTED IN COURT

Relative of Client Charged Him with Grand Larceny.

Peter C. Kelly, a lawyer, who has been practicing in the Morrisania police court for years, was arrested in that court on a charge of grand larceny made by Luciano Ferranti, of No. 28 East 19th street, yesterday. Kelly was released in \$1,000 bail. He will have a further examination on Tuesday.

The charge against Kelly grows out of the arrest on a charge of assault of Giuseppe Puccetto, of No. 28 East 19th street, Ferranti, who is a cousin of Puccetto, says lawyer got Puccetto out on bail or return the money. Kelly signed a paper to this effect, when Ferranti predicted.

Ferranti charged that Kelly did not succeed in getting his cousin out on bail and refused to return the money. Magistrate Krotel discharged Puccetto on Friday and yesterday ordered the complaint against Kelly.

## GORKY TO REMAIN IN EXILE.

Naples, March 15.—Maxim Gorky, the Russian author, who has been living in practical exile at Capri for several years past, has decided not to take advantage, at least at the present time, of the amnesty order recently issued by the Russian Emperor in celebration of the Romanoff tercentenary.

## MEDICAL JOURNAL FLAYS ALL "MIRACLE MONGERS"

Continued from first page.

time to-day. It also has been reported that Dr. Anderson, acting under instructions from Surgeon General Blue, director of the hygienic laboratory in Washington, will insist that Dr. Friedmann make known the secret processes by which the turtle germs were rendered non-toxic and non-virulent.

### Will Reveal "Secret."

It is believed that the Berlin man will accede to the government physician's request, he having announced last Monday, when he left town for Montreal, that he would reveal the "secret."

Surgeon General Blue is acting in the matter under instructions from the Department of State, growing out of the interest of the United States Congress in the Friedmann "cure." A. M. Thackara, American Consul General at Berlin, in a report which was made a part of ex-President Taft's message of January 16 last, wrote regarding the estimate of the "cure" in Berlin as follows:

"Owing to the comparatively short period which has elapsed since the new treatment has been tried, fears have been expressed lest the non-virulent organisms, when ejected into the human system, may not become virulent and cause an outbreak of the disease."

A Dr. Plorkowski, of Berlin, has referred to the present turtle germs, which are so emphatically declared by Dr. Friedmann to be harmless, as the "third race." Dr. Plorkowski, according to Mr. Thackara's report, says that Friedmann went to him (Plorkowski) in 1903 with a culture which was de-

rived from the dead tortoise, and the culture proved to be highly virulent. It was after his experiments in association with Plorkowski that the discovery of the "third race" of germs, which proved to be harmless, was made.

### Government Plans Upset.

Dr. Friedmann's failure to return to the city on Friday, as he originally intended, upset the plans of the government doctors considerably, it was learned yesterday. They made several anxious inquiries yesterday as to when they could go on with the tests that began last Sunday at Mount Sinai Hospital.

It seems certain that clinical tests will be made on a large number of patients for the government's benefit during the coming week. It is stated on good authority that a number of institutions, the names of which have not been given out, will be opened to the new treatment.

There were some doubts expressed yesterday as to whether Dr. Friedmann would return to-day. These were set at rest when Dr. Arthur Friedmann showed a message from his brother, saying he had left London, Ontario, and would arrive in New York to-day at 9:30 o'clock.

London, Ont., March 15.—Twelve patients at the Public Health Institute were inoculated to-day by Dr. Friedrich F. Friedmann with his tuberculosis vaccine. Nearly eighty had been gathered for the test, but the physician found there was only enough vaccine for the treatment of a dozen.

### BRITISH ARMY ESTIMATES.

London, March 15.—The estimated amount which the House of Commons is to be asked to appropriate this year for expenditure on the British army is \$41,000,000, against \$33,300,000 last year, an increase of \$7,700,000. The sum of \$17,000,000 is to be devoted to aviation.

## POPE STILL MUST REST

Doctors Advise Him Not to Make Palm Sunday Address.

Rome, March 15.—It is customary for the Pope to deliver a short address when receiving the palms, but under the advice of his physicians Pope Pius to-day omitted that ceremony. The latest announcement by his physicians is, however, that the Pope has practically recovered from his illness.

The Pope, when informed by his medical advisers that he must not deliver the address, said: "In forbidding me to speak my doctors are more severe than Pope Sixtus V."

This remark had reference to an incident which occurred at the time of the raising of the obelisk in St. Peter's Square in the sixteenth century. A great crowd was watching the work. Pope Sixtus V. had ordered that no one should speak during the operation on pain of death. The operation was in danger of failure, however, from the tension of the ropes, but a sailor named Brescia, from San Remo, risked his life by shouting to the workmen to wet the ropes.

Pope Sixtus, instead of punishing the sailor, granted to him and the Brescia family for all future time the privilege of providing the Pope with palms for Palm Sunday.

## BRYAN PREDICTS HOMERULE

Will Come in Two Years, He Tells Washington Irishmen.

Washington, March 15.—Home Rule in Ireland within two years was the prediction to-night of William Jennings Bryan, Secretary of State, in an address at a St. Patrick's Day banquet, given by Irish-Americans. Mr. Bryan paid a tribute to the Irish character and added: "The degradation of the House of Lords is due to its opposition to the Home Rule bill, which brought about an amendment to the English constitution, thus making the concurrence of the House of Lords unnecessary after a bill has passed the House of Commons a second time. The Irish can point to this as one of the greatest achievements in history. Within two years the Irish all over the world can celebrate the freedom of Ireland."
